

**Adaption** is the latest evolution of slim line workstation screen systems. Designed with influence from around the globe, the Adaption screen system delivers ultimate flexibility with colours and sizes at competitive prices.

Adaption has a robust joiner that connects easily and offers torsional rigidity at intersections. The top cap also offers a built in tool rail to accept a range of accessories. Adaption is available in either desk mounted or floor standing options.

Made in Australia.

adaption

# adaption cable management

Adaption has various options for reticulating power and data. Cabling is brought down from the ceiling via an umbilical or integrated powerblade and distributed by either a soft wired cable basket or power rail.
