POSITIVE PROGRESS

As a proud Australian manufacturer, sustainable practices are an important part of our manufacturing capabilities. We maintain a conscious commitment to environmental and social sustainability and achieving our goals across all of our operations through our sustainability program, Positive Progress.

GREENTAG CERT™ CERTIFICATION

Global GreenTag is a Product Sustainability Certification, Product Health & Environmental Product Declaration Program Operator relevant to all of the major green building rating tools in the world including;

- LEED® (167+ countries)
- International WELL™ Building Standard (60+ countries)
- Green Star® Australia, New Zealand and Africa (56+ countries)
- Green Globes® (21+ countries)
- BREEAM® & BREEAM® International (78+ countries)
- EarthCheck® (70+ countries)
- LOTUS
- Infrastructure Sustainability 'IS' Tool

TIMBER CERTIFICATION

As one of Australia's largest manufacturers of wood products, Laminex supports responsible forest management and is committed to producing quality products from quality materials that are backed by globally recognised certifications. We source our raw materials from suppliers who have been independently verified as compliant to chain of custody standards, meaning that materials are produced using wood fibres sourced from certified sustainably managed forests to Responsible Wood/PEFC (Programme for the Endorsement of Forest Certification) Certifications.

Our manufacturing facilities hold their own PEFC certifications. This means all certified wood products from these facilities can be traced from plantation to final manufactured product.

SUSTAINABLE MANUFACTURING INITIATIVES

Laminex Australia also maintains ISO 14001 Environmental Management System certification for all manufacturing sites and is progressively embarking on a number of waste and emission reduction initiatives to reduce our overall environmental impact.

Find all of our documentation, certificates and reports at laminex.com.au/about-us/sustainability

DECORWOOD®

The Laminex Decorwood® range is standard E0 MDF, decorated both sides in a range of décors. Available in 2400mm x 1800mm panels in either 18mm or 25mm thicknesses, Decorwood® is a cost-effective decorated MDF panel suitable for loose commercial furniture like lockers and desks, particularly where a shark-nose edge is required. Laminex Decorwood® is proudly made in Australia.
